STATE OF

NORTH CAROLINA

SUMMARY OF FINANCIAL CONDITION NOVEMBER 30, 2002

STATE OF NORTH CAROLINA

The Honorable Michael F. Easley Governor of the State of North Carolina January 31, 2003

We herewith submit the <u>Summary of Financial Condition</u> for the State of North Carolina for the five months ended November 30, 2002. The financial information (unaudited) within this report is designed to present the results of financial operations under the budgetary basis of accounting at a summary level.

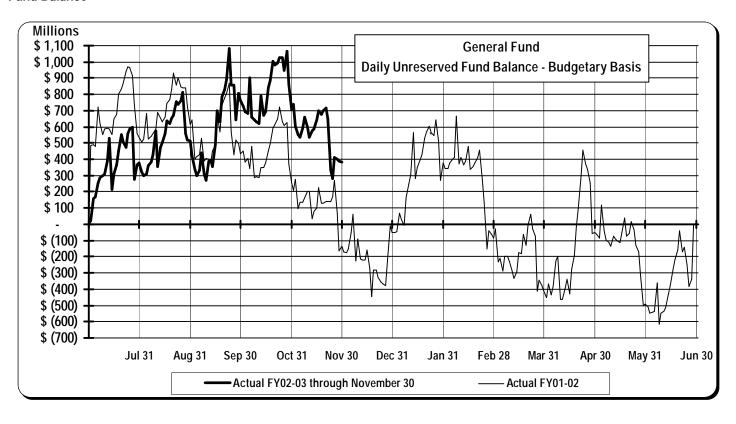

The <u>Summary of Financial Condition</u> is intended to provide specific analysis of revenues and expenditures, and serve to point out particular areas of strength, as well as areas where unusual one-time transactions, changes in accounting, or changes in procedure may result in misleading interpretations by a casual reader.

Please contact us if you have questions or if you would like more detailed information. We are committed to providing you and the State with the most reliable and timely financial and economic information possible.

Sincerely, Robert L. Powell State Controller (919) 981-5454

Note that the table represents net tax and non-tax collections and not gross collections. When compared to the prior year through November 30, actual tax and non-tax revenues increased by \$417.0 million, or 7.9%. The net, or actual, tax and non-tax revenues through November 2002 of \$5,699.3 million were less than the projected revenues by \$1.0 million.

\$95.1 million for inventories reimbursement to local governments, not previously paid in April 2001, was repaid in July 2001 from the Governor Easley escrow fund (Executive Order #3). For fiscal year 2002-03, the local government tax reimbursement has been repealed. In addition, no funds will be transferred from corporate income tax to the Critical School Facility Needs Fund or the Public School Building Capital Fund. Instead these funds will be deposited into the State Public School Fund. In 2001-02, these transfers, which were netted against corporate income tax, totaled \$225.6 million (see table on following page).

Major components of tax and non-tax revenues that increased from the prior year through the end of November 2002 included:

- \$254.8 million for Sales and Use Tax;
- \$208.4 million for Corporate Income Tax; and
- \$73.6 million for Individual Income Tax.

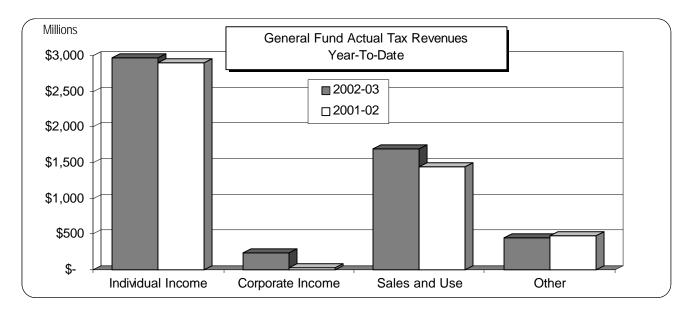

November 30, 2002

Tax revenues through November 2002 were greater than the period through November 2001 by \$521.2 million, or 10.8%. If comparing current and prior year tax revenues without taking into account the \$225.6 million of transfers, which net against corporate income tax for the period through November 2001, tax revenues increased by \$295.6 million, or 5.8%. Tax revenues are presented net of refunds to taxpayers and various transfers. Comparisons of current and prior year tax revenues are difficult due to legislative changes and netting of various transfer expenditures against the tax revenue sources. Examples of such transfers include:

- reimbursements to local governments;
- reimbursements for costs of administration of sales and use tax for local governments; and
- transfers to the Public School Building Capital Fund and Critical School Facility Needs Fund.

Non-tax revenue through the end of November 2002 was \$104.2 million, or 23.6%, less than through the end of November 2001. Effective with the 2002-03 fiscal year, the Highway Trust Fund Transfer In will occur on a quarterly rather than annual basis. In 2001-02, the Highway Trust Fund transferred \$171.7 million annually. In 2002-03, \$377.4 million (including a \$125 million loan from the Highway Trust Fund) will be transferred over four quarterly installments of approximately \$94.4 million. Investment revenues decreased by \$16.9 million from the prior year through the end of November 2002.

Expenditures

Actual appropriation expenditures through November 30, 2002, exclusive of appropriation expenditures for capital improvements funded by bond proceeds, were less than actual appropriation expenditures through November 2001 by \$50.5 million, or 0.9%.

Expenditures for current operations (exclusive of expenditures for capital improvements and debt service) through November 2002 were less than such expenditures through November 2001 by \$70.3 million, or 1.3%.
