Bailey Case — State Tax Refunds - State Retirees. State and local government retirees filed a class action suit in 1990 as a result of the repeal of the income tax exemption for state and local government retirement benefits. The original suit was dismissed after the North Carolina Supreme Court ruled in 1991 that the plaintiffs had failed to comply with state law requirements for challenging unconstitutional taxes and the United States Supreme Court denied review. In 1992, many of the same plaintiffs filed a new lawsuit alleging essentially the same claims, including breach of contract, unconstitutional impairment of contract rights by the State in taxing benefits that were allegedly promised to be tax exempt and violation of several state constitutional provisions. Patton Case — State Tax Refunds - Federal Retirees. On June 23, 1995, retired federal employees sued for refund of income taxes paid upon pension income for tax years 1989 through 1993. They alleged that the incremental pension increases granted state

retirees since 1989 unconstitutionally discriminate against them. The North Carolina Supreme Court ruled in the Bailey case on Friday, May 8, 1998. On June 9, 1998 representatives of the State and the various retirees involved in the Bailey and Patton cases announced a settlement in the amount of \$799 million. Of this amount, \$400 million was paid in refunds in November 1998 for fiscal year 1998-99, and \$399 million during July of fiscal year 1999-2000.

Smith v. State - Intangibles tax refunds to non-protesting taxpayers. On February 21, 1996, the U.S. Supreme Court declared North Carolina's intangibles tax unconstitutional. Subsequently, the State made refunds of intangible taxes paid by all persons who had complied with the provisions of G.S. 105-267, Taxes to be paid; suits for recovery of taxes, for obtaining refunds of unconstitutional taxes. The Smith case is an action aimed principally at recovering intangibles tax refunds for taxpayers who failed to comply with the provisions of G.S. 105-267. On December 4, 1998, the Supreme Court ruled that North Carolina will have to pay refunds to non-protesters who paid intangibles taxes. This case has been consolidated with Shaver v. State, another action for refund of intangibles tax paid on shares of The consolidated case has now been settled and the agreement requires the State to pay \$440 million into a settlement fund in two installments, \$200 million by October 1, 1999, and \$240 million by July 10, 2000.

Note that the table represents net tax and non-tax collections and not gross collections. The net, or actual, tax and non-tax revenues through October 1999 of \$4,204.4 million were less than the projected revenues by \$12.9 million. Through October 1999, \$105.0 million of disproportionate share receipts were collected as non-tax revenue. Disproportionate share receipts are Medicaid payments received by hospitals that serve a disproportionate share of indigent patients. Major components of tax and non-tax revenues that increased from the prior year through the end of October 1999 included:

- \$56.9 million for Individual Income Tax;
- \$26.2 million for Franchise Tax; and
- \$8.9 million for Insurance Tax.

October 31, 1999

Tax revenues through October 1999 were greater than the period through October 1998 by \$114.9 million, or 3.2%. Tax revenues are presented net of refunds to taxpayers and various transfers. Comparisons of current and prior year tax revenues are difficult due to legislative changes and netting of various transfer expenditures against the tax revenue sources. Examples of such transfers include:

- reimbursements to local governments;
- reimbursements for costs of administration of sales and use tax for local governments; and
- transfers to the Public School Building Capital Fund and Critical School Facility Needs Fund.

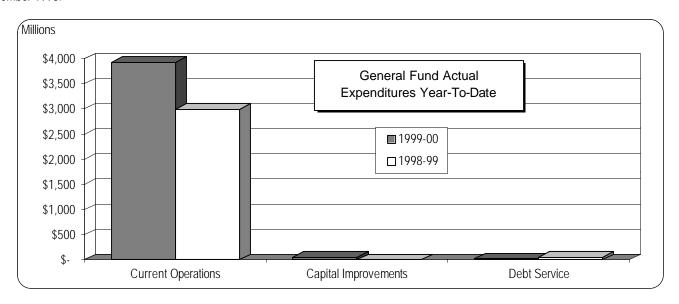

Non-tax revenue through the end of October 1999 was \$117.1 million or 35.5% greater than through the end of October 1998. Cash balances in the General Fund were \$2,015.8 as of October 31, 1999, versus \$2,995.1 as of October 1998. You would therefore expect investment earnings to be lower. Investment earnings were \$79.7 million through October 1999, compared to \$90.9 million through October 1998.

October 31, 1999

Expenditures

Actual appropriation expenditures through October 31, 1999, exclusive of appropriation expenditures for capital improvements funded by bond proceeds, were greater than actual appropriation expenditures through October 1998 by \$964.0 million, or 31.7%. Of this 31.7% increase, \$399 million, or 13.1%, represents fiscal year 1999-00 general government expenditures for payments to State and federal retirees and \$200 million, or 6.6%, represents payments for Intangibles tax refunds (see page 1). For fiscal year 1998-99, the \$400 million payment to retirees did not occur until November 1998.

Expenditures for current operations (exclusive of expenditures for capital improvements and debt service) through October 1999 were greater than such expenditures through October 1998 by \$931.5 million, or 31.2%. As mentioned above, of this 31.2% increase, \$399 million, or 13.3% represents fiscal year 1999-00 general government expenditures for payments to State and federal retirees and \$200 million, or 6.7% represents payments for Intangibles tax refunds (see page 1). For fiscal year 1998-99, the \$400 million payment to retirees did not occur until November 1998.
