Course Description:

This course is offered in a group-study format where participants and the discussion leader have opportunities to interact and discuss ethical issues facing the profession. North Carolina Professional Ethics and Conduct rules are just one subsection of the set of rules and standards governing North Carolina CPAs. However, the importance of professional ethics merits an in-depth study, because making the right decision every time is hard! Without a solid ethical base, the rules are difficult to apply.

The North Carolina Professional Ethics and Conduct rules will be specifically examined, clarifying how they are applicable to all CPAs. Standards of ethical conduct are not only examined for those CPAs in public practice, but also for CPAs working in industry, government, and education throughout North Carolina. You will examine current trends in ethical behavior, social networking, and fraud. Real-life case studies supplied by North Carolina CPAs that examine those ethical dilemmas most prevalent in the workplace will be discussed.

Note—This course fulfills the State Board's annual two-hour ethics CPE requirement. The two-hour ethics course is required for annual license renewal for North Carolina CPAs and does not qualify one to obtain an original or reciprocal certificate. (The Accountancy Law course required for certification and reciprocity is an eight-hour program that is also offered by NCACPA, and it satisfies this requirement.) If you have questions, please contact the NC State Board of CPA Examiners.

The vendor has identified this course as satisfying the 80-hour requirement for Yellow Book. It is up to the individual to determine if this course meets the 24-hour Yellow Book requirement. If you have a question, please contact the GAO at (202) 512-9535.
