

The purpose of this Business Process Procedure is to explain how to change the weekend shift premium for a position in the Integrated HR-Payroll System.

Trigger: There is a need to change the weekend shift premium on a position.

Business Process Procedure Overview:

Weekend Shift Premium (IT 9009) - Stores settings related to Weekend Shift Premium eligibility and Payouts. If OSHR has approved a rate other than the default of 10%, the rate must be entered as a percentage in the "Rate" field.

Tips and Tricks:

See the OM Tips and Tricks Job Aid for a full listing of Best Practices and Tips & Tricks. The job aid is located on the Training HELP website <u>https://www.osc.nc.gov/training/training_help_documents</u>.

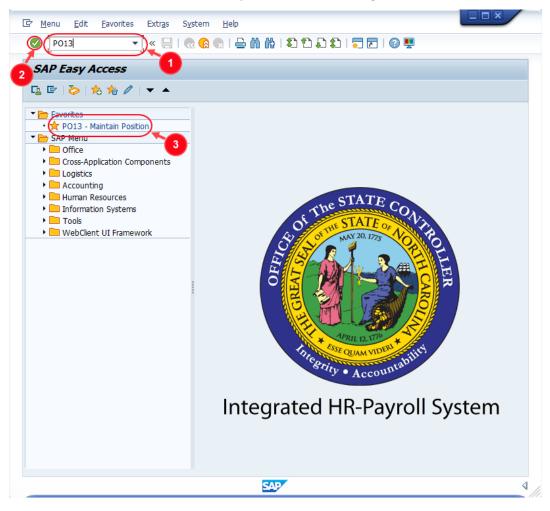

- **Copy** is to be used most of the time. This will delimit the existing record and create a new record with the start date given. Copying keeps a history of the old record.
- Change site is to be used only if you make a spelling or other simple error and want to change the record. There is no history tracked on what the record used to be if you use the change functionality.

Procedure

1. Type PO13 in the command field (1). Hit enter on your keyboard or click the Enter S button (2). Also, you can double click it from your favorites folder if you've previously saved it there (3). See the information block below the screen shot for a quick tutorial on adding the transaction.

Review the Favorites Folder training document for more tips and features!

2. Input the position number that needs updating. This document will use 60087078 from the OSC training environment. <u>Access client 899</u> to follow along in a "live" system.
